

With ever-increasing global demand for finite natural resources, resource optimization has become a compelling investment opportunity.

The Pax Global Environmental Markets Fund is a fossil fuel-free fund that invests in companies around the world that are offering innovative solutions in such areas as energy efficiency, water infrastructure, waste management and sustainable food and agriculture.

Given the importance of careful stewardship of natural resources to global economic growth, we believe that leading companies in environmental markets may be well positioned to provide strong returns over the long term.

Investing in the transition to a more sustainable economy.

Capital invested in the global economy is currently producing an unsustainable level of CO₂ emissions. The Pax Global Environmental Markets Fund, by contrast, has a net positive CO₂ impact and makes a meaningful contribution to carbon emissions reductions. As a result of its carbon abatement, the Fund surpasses the goal of a “2 degree Celsius economy,” as advocated by climate experts.

2016 Environmental Impact of the Fund

	Total Impact of the Fund	Impact of \$10M Investment
Net CO₂ emissions avoided	5,060 tCO ₂	150 tCO ₂
Renewable energy generated	56,600 MWh	1,630 MWh
Water provided/saved or treated	19.9 billion gallons	570 million gallons
Materials recovered/waste treated	80,000 tons	2,300 tons

Fund Contribution to the Low Carbon Energy Transition (Net CO₂ impact per \$10M invested)

Note that this is representative of the portfolio holdings and AUM of this fund as of December 31, 2016. This data is based on the most recently reported annual environmental data for all holdings. Methodology has been assured by Ernst & Young LLP. For further explanation of Impax's impact methodology (which is based on equity value) please see <http://www.impaxam.com/about-us/impact-investing>
